

# HELP4U

- ✓ HELP4U™ connects individuals with programs and resources they may not have previously known about that can help improve their quality of life.
- ✓ HELP4U™ improves the quality and availability of help, while lowering the cost of care.
- ✓ The programs included in HELP4U™ range from healthcare and housing to job training and financial assistance.
- ✓ HELP4U™ is available for anyone to use, including residents, service providers and healthcare professionals.

We all know that in order to have the best effect, we need to work together. The same holds true for helping those in need. **HELP4U™** is an interactive web-based platform that connects individuals with free and paid services that can help improve their quality of life, while facilitating coordination of care and benefits. **HELP4U™** assesses specific needs and matches individuals with a variety of programs, including healthcare, housing, job training, counseling, financial assistance, and other services.

## Features

**HELP4U™** is tailored to meet the needs of all types of users: participants, facilitators, providers and sponsors.

- Participants benefit from an assessment tool that allows them to enter in their information and the types of programs and services they are looking for. In addition to matching individuals with available resources, **HELP4U™** also will allow participants to make appointment and manage their online profiles.
- Facilitators such as case workers and parole agents who help participants receive care can use **HELP4U™** to track participants' access to services and monitor progress.
- Providers such as doctors, nurses and pharmacists can log on to access participant records, follow-up on appointments and add programs and resources for participants.
- Sponsors including nonprofit organizations or government agencies that provide funding for programs can also add programs and resources for participants as well as generate user and activity reports and invoices.

## Availability

**HELP4U™** is a free tool that currently only contains information regarding resources available in Oakland, California. Ramsell plans to expand the availability of **HELP4U™** to other major cities in the U.S. in the coming months and eventually offer the platform nationally.

## About Ramsell Holding Corporation

**HELP4U™** was developed by Ramsell Holding Corporation, an Oakland-based company that has extensive experience managing public health programs and developing unique technology platforms to address health needs.

Ramsell is founded on the idea that, in public health, the people who are down and out are those that need a hand most. The company has more than 30 years of experience providing program management and information technology services to support underserved populations. Ramsell has managed, configured and developed web-based systems for various public health programs, including the AIDS Drug Assistance Program (ADAP) in California, Colorado and Washington and State Pharmaceutical Assistance Programs in Colorado and Texas.

More information on Ramsell Holding Corporation and its family of companies is available at: <http://www.ramsellcorp.com>.
