Ramsell Correctional Application
HIV Linkages to Care: Focus on Prisoner Reentry
& Continuity of Care
Monday, August 20th. 2012

49 Years in Business with a Singular Purpose

- Founded by Sylester Flowers, with a single pharmacy located in East Oakland. Almost 50 years later, still based in Oakland, family-owned and with a mission rooted in service to our community.
- “We provide **solutions** to **organizations** that help **underserved people** get connected to the **resources** and **medications** they need for a **better life.**”
 - 29 years of managing public, payer of last resort drug programs
 - 19 years of designing and managing enrollment & eligibility processes
 - 19 years of coordinating benefits in multi-payer environment

Underserved Population

State Office of AIDS

- Six (6) Statewide ADAP Programs
- Servicing 1/3 of all ADAP patients in the U.S.

Hospitals, Associations & Clinics

- Pharmacy Inventory Management
- Medication Therapy Management
- 340B Drug Discount Program Management
- Pharmacy Networks

Social Services Workers

- PAF Underinsured

We've got some problems to solve

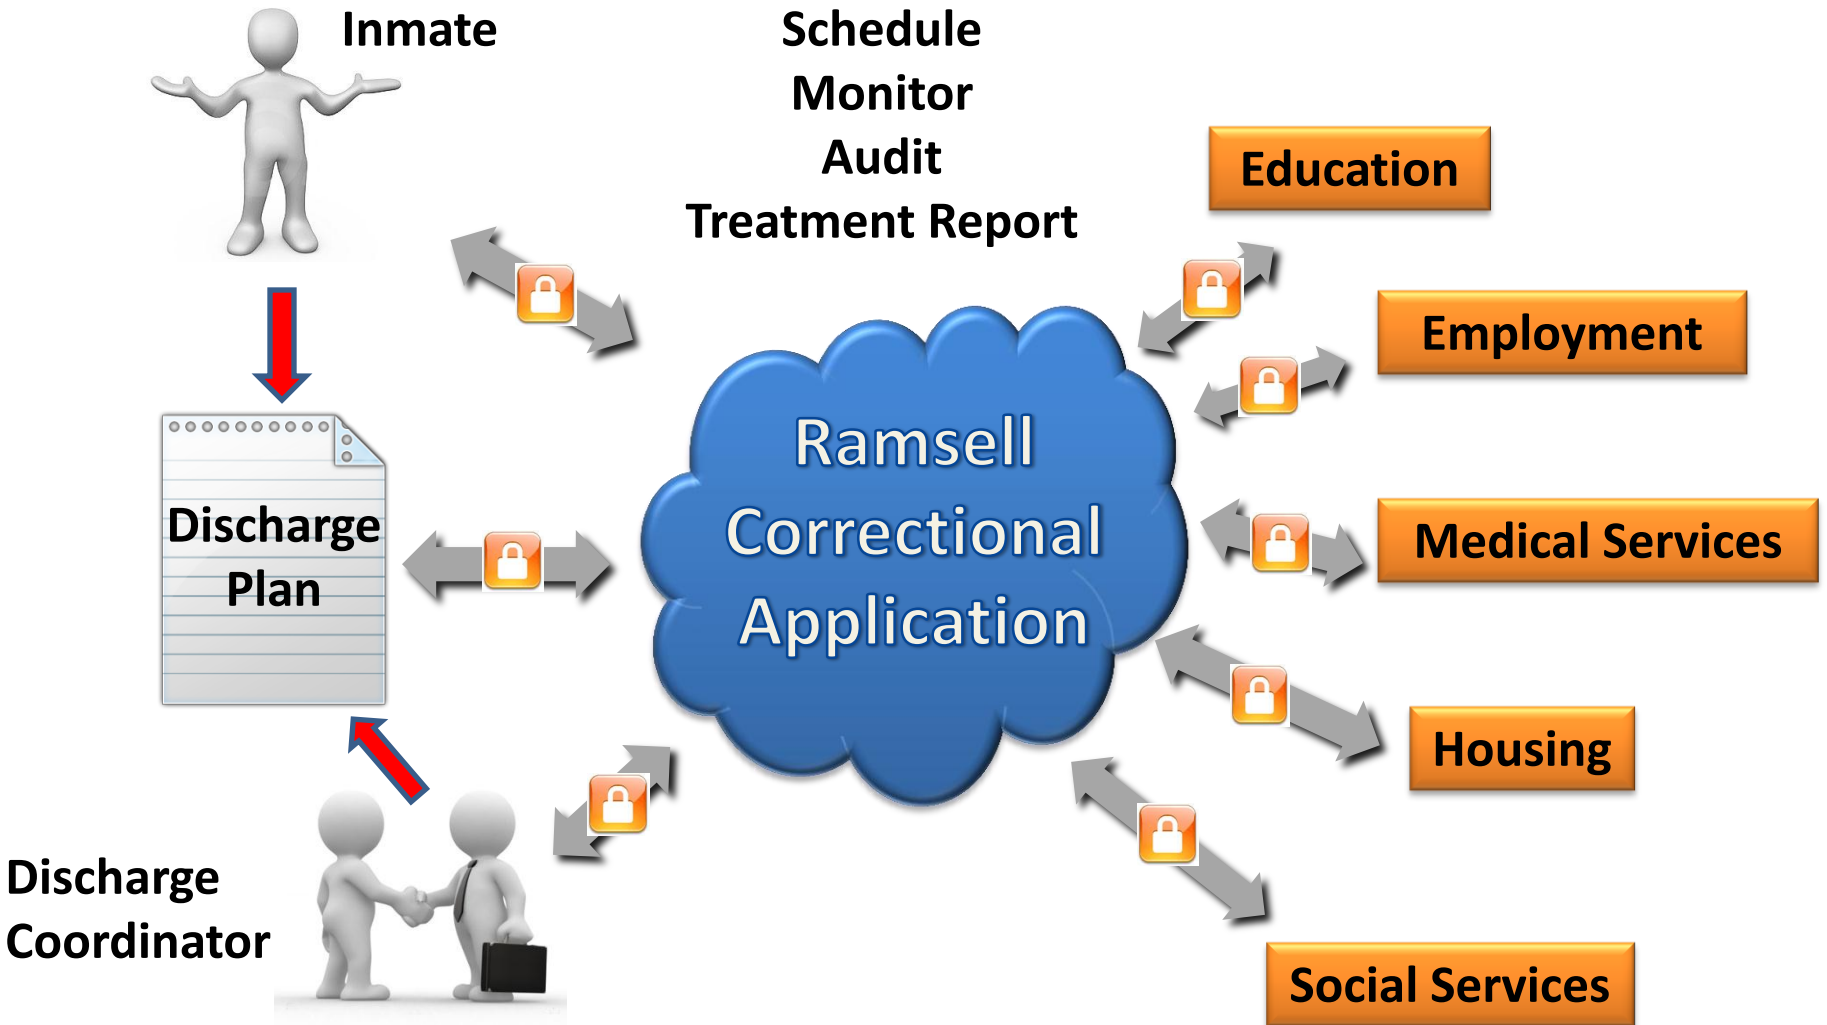

- Approximately 17% of HIV-positive Americans pass through the correctional system every year
- HIV prevalence among incarcerated populations is nearly 2.5 times general population prevalence
- Incarcerated persons face increased risk of homelessness, unemployment, and other challenges upon return to their communities
- Source: Journal of Urban Health: Bulletin of the New York Academy of Medicine (2010)

- Ramsell Correctional Application is a unique web-based, on-demand software solution that automates the Discharge Planning Process.
- Prior to release, the Discharge Coordinator builds a profile and assesses an inmate's needs for
 - **Healthcare**
 - **Housing**
 - **Education**
 - **Mental health**
 - **Substance abuse**
 - **Employment**
 - **Social services**
 - **Anger Management**
- The system creates a custom electronic Discharge Plan that matches the inmate's requirements with the right Community Based Organizations.
- Through Ramsell Correctional Application's automated workflow capability, appointments can be scheduled and adherence can be monitored, audited and reported upon in a safe, secure and compliant environment.

Preparing offenders to reenter the community:

- Providing access to Mental Health / Medical Treatment
- Stable Home and Family Life
- Obtaining Treatment for Substance Abuse
- Training for Cognitive Skills Development
- Finding Pro-Social Support Groups.
- Addressing Limited Education / Lack of Job Skills/ Employment Issues

Building a Community of Care

- Facilitates workflow across multiple stakeholders
- Facilitates workflow across multiple roles (Discharge Planner, CBO Caseworker, Probation/Parole Officer)
- Integrates with legacy systems, processes and platforms
- Robust reporting and analytics components for business activity
- Improved client outcomes through coordination of care
- Reduce overall costs as a result of multiple efficiencies

- Automate Discharge Planning Process:
 - Schedule Appointments
 - Share PHI among HIPAA providers in a secure environment
 - Share case notes
 - Monitor adherence
- Post-release Continuity of Care: Improve offender wellness. Reduce the risk of the offender returning to the system with more severe and costly treatment needs
- Maintain Lifetime Electronic Record
